

Nurse Advice Line

For Members of **Community First Health Plans**

Community First Health Plans (CFHP) has a **Nurse Advice Line** – available 24 hours a day, 7 days a week, 365 days a year – to help you get the care you need.

CFHP promotes and encourages you to first contact your PCP to direct your medical care. Your PCP serves as your medical home and will take care of your medical needs. If for any reason you are unable to reach your PCP and need help, the CFHP **Nurse Advice Line** is available to you.

Nurses can help you with medical advice, such as what to do for a common cold or how to care for a loved one released from the hospital.

Call the Nurse Advice Line:

(210) 227-2347 or toll-free 1-800-434-2347
