

### Three-tier Preferred Drug List effective January 1, 2020

This preferred drug list was developed by the Community First Health Plans Pharmacy and Therapeutics (P&T) Committee to ensure you receive cost-effective pharmaceutical care, emphasizing quality and safety. The P&T Committee is made up of Community First physicians and other health care providers. Using this list will allow Community First to keep its prescription benefits affordable for you. While you still will be able to receive any medication your physician chooses to prescribe for you, medications not listed below may require a higher co-pay and will not be available through UHS mail-order. Information about prior authorization requirements or limitations for certain medications is available to Prescribers via the Navitus Web Portal. For more information, please visit [www.navitus.com](http://www.navitus.com) or call (866) 333-2757.

All generic drugs are considered preferred, are 1st Tier medications and are displayed in lower case. Preferred brand name drugs are 2nd Tier medications and are capitalized. Medications not listed are considered non-preferred brand name drugs and are 3rd Tier medications. For additional outpatient prescription medication coverage information, you may contact Member Services at (210) 358-6090 or toll-free at 1-800-434-2347. Please refer to your Certificate of Coverage and your Outpatient Drug Rider for drug exclusions, quantity limits, and step edit, which may apply to certain medications. If you choose to get a brand name medication when a generic is available, you will be responsible for the generic copayment, plus the price difference between the generic medication and the brand name medication, even if the prescriber writes, "Brand Name Medically Necessary."

Over-the-counter (OTC) medications and any prescription medication that contains the same active ingredient(s) as an existing over-the-counter medication are not covered. If you decide to try a non-prescription medication, talk to your doctor or pharmacist about the most economical way to purchase the drug and the appropriate dosing that matches your prescription strength brand.

### Maintenance drugs are coded as such if they meet the following criteria:

1. Medications that do not require frequent monitoring and dosage adjustments for side effects or therapeutic responses. Certain drugs that may have potential life-threatening toxicity when taken as an intentional overdose may be excluded.
2. Medications that are used to treat a chronic condition with no therapy endpoint. These drugs are taken continuously, but do not provide a cure for the condition for which it is being treated.
3. Medications that are typically used as outpatient type of drugs.

#### KEY

- PA Prior authorization
- QL Quantity limit
- ST Step therapy
- \* Maintenance medication
- ② Allow 1-2 business days for the University System Pharmacy to order
- ☒ Available for mail-order through the University System Pharmacies

### QUANTITY LIMITS:

30 per 30-day supply unless otherwise noted

#### bupropion

90 per month

#### bupropion SR

60 per month

#### ELIDEL

must have tried/failed  
 low potency corticosteroid first

#### ENBREL

25mg INJ: 4 INJ per 28 days

#### ESTRING

1 every 3 months

#### granisetron

10 tablets per prescription

#### ISENTRESS

60 per 30 days

#### lovastatin

60 tablets per 30 days

#### NUVARING

1 ring per month

#### ondansetron

10 tablets per prescription  
 50ml per prescription

#### risperidone

60 tablets per 30 days /  
 120ml per 30 days  
 1mg/ml solution

#### sumatriptan

tabs: 9; spray: 6 per month

#### TOBRADEX

10ml per 6 months

#### TREXIMET

9 tablets per 30 days

#### venlafaxine

60 per month

#### VIAGRA / CIALIS / LEVITRA

6 tabs/month per RX and PA criteria

#### XULANE PATCH

3 per month

#### ZOMIG

5mg: 3 per month;  
 2.5mg & spray: 6 per month

### **SPECIAL HANDLING MEDICATIONS:**

Members may pick up these medications at any UHS pharmacy for a \$0 co-pay.

In general, refrigerated medications and controlled substances may not be mailed.
